Education

Bachelor in Computer Science

09/2016 - 09/2019

BMHS SUPTEM Tangier

Professional license in Networks

09/2018 - 09/2019

Versailles university

Experience

Ecommerce store

08/2018 - 09/2018

Internship at lpmexique

We implemented a simple webapp with react and flow architecture. I used atomic design to structure my code and keep my sanity.

IDS using deep learning

07/2019 - 09/2019

Internship at Amendis

Trained a model on CICIDS2017 dataset to detect network based intrusions (XSS, DDOS, Brute Force...). I got an accuracy of 98% on training data, 85% on validation.

Projects

Bookstore

09/2019 - 12/2019

Freelance

Designed website flow with UML diagrams. Designed the UI, and successfully translated it into a working SSR app.

Agency Portfolio

11/2019 - 12/2019

Freelance

Static website using NextJs.

The fun part in this project was working with physics based animations.

Skills

Strong

Javascript, HTML, CSS. React/redux

Version Control with git/ github

Familiar

C#/C++/Java NodeJS SQL Linux,
networking/ system administration

Others

UI Design with Figma.
